

# SUNY Energy Initiatives

The background of the slide features a composite image. At the top, there's a bright sun in a blue sky. Below it, several rows of blue solar panels are shown, some angled towards the sun. In the distance, two white wind turbines are visible against a clear sky. At the bottom, a portion of a green and blue globe is visible, representing the Earth. The overall theme is renewable energy and sustainability.

Karren Bee-Donohoe, Associate Vice Chancellor for Capital Facilities  
State University of New York System Administration

- New Design Directives
- Retrofit NY – Prototype project through a partnership with DASNY and NYSERDA
- Goal to Electrify SUNY Campuses
- New York Higher Education Large Scale Renewable Energy Project (NY HE LSRE)
